

TEXROPE® MO-K Drive™

Runs longer and smoother on your lawn and garden equipment

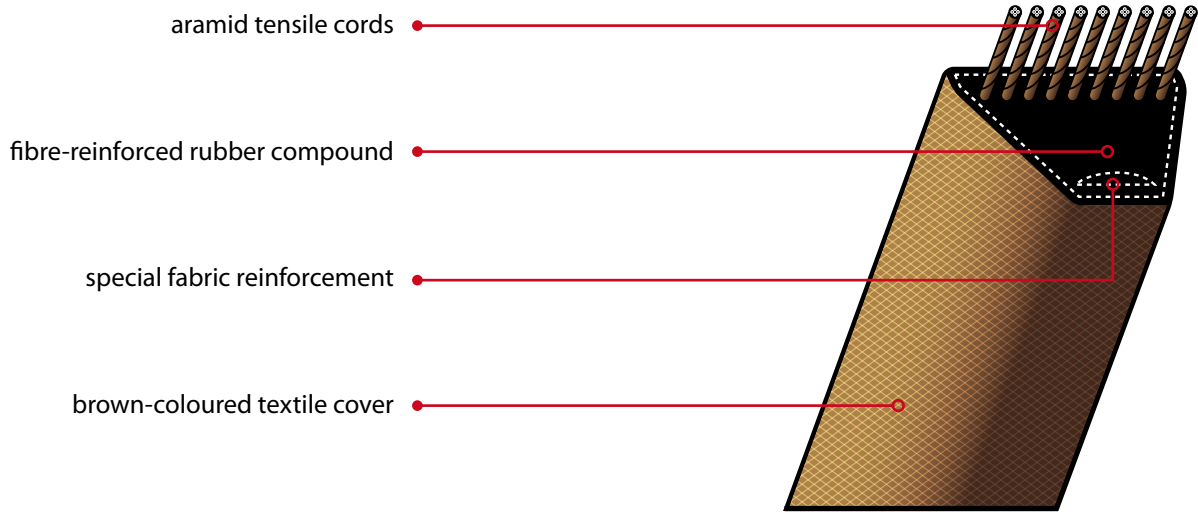

Longer-lasting, higher power capacity V-belts are what you are looking for when your lawn and garden equipment needs belt replacement. TEXROPE® MO-K Drive™ textile wrapped V-belts offer you all that. In addition, they **offer a smooth clutching on loaded, back-side-idler driven equipment.**

TEXROPE® MO-K Drive™ belts are available in a wide variety of sizes covering lots of applications. Opt for TEXROPE® MO-K Drive™ and get a cost efficient premium product.

TEXROPE® MO-K Drive™

Runs longer and smoother on your lawn and garden equipment

Construction features

aramid tensile cords

- | | |
|--|---|
| <ul style="list-style-type: none"> • extreme strength • low elongation | <ul style="list-style-type: none"> • high resistance to heavy shock loads • minimal belt tension loss • reduced slippage |
|--|---|

fibre-reinforced rubber compound

- | | |
|--|--|
| <ul style="list-style-type: none"> • outstanding cord support | <ul style="list-style-type: none"> • additional belt strength and stability |
|--|--|

fabric reinforcement

- | | |
|---|---|
| <ul style="list-style-type: none"> • crack-resisting reinforcement | <ul style="list-style-type: none"> • longer service life |
|---|---|

brown-coloured textile cover

- | | |
|--|--|
| <ul style="list-style-type: none"> • low friction wrapping • high temperature resistance | <ul style="list-style-type: none"> • smooth clutching • improved resistance to reverse bending during backside idler operation • outstanding resistance to oil, heat and cracking |

SIMPLIFIED BELT IDENTIFICATION PROCEDURE

How to search for your replacement belt?

When specifying a belt, you need to provide the belt section (3L, 4L or 5L) and outside length in inch.

1. Determine the section by measuring the top width of the belt:

- ± 9.5 mm = 3L
- ± 12.7 mm = 4L
- ± 16.7 mm = 5L

2. Measure the outside length of your belt and if necessary use the listed conversion tables to find the length in inches.

SAFETY NOTICE

Removal and installation of a TEXROPE® MO-K Drive™ belt should only be done by a professional, trained mechanic.

Ordering code:

3L16

3L - Section
16 - Outside length (inch)

All dimensions are available on request.

TEXROPE® MO-K Drive™

Runs longer and smoother on your lawn and garden equipment

Key benefits for your lawn and garden applications

- Extraordinary power capacity
- Smooth clutching operation
- High shock load and temperature resistance
- Extreme bending and crack resistance
- Longer service life
- Complete belt range available

TEXROPE® MO-K Drive™ V-belts guarantee a long-lasting and trouble-free performance on your lawn and garden equipment. Designed for heavy shock loads and high power transmission levels, they are the best choice for your machine. Their strong aramid tensile cords and low friction wrapping ensure a perfect and stable belt operation. In addition, these belts are highly resistant to repeated reverse flexing. Clutching will never have been this smooth before. In short, installing a TEXROPE® MO-K Drive™ belt offers you peace of mind!
